

SARO v8.0.0 - EU AI Act Position Statement

Document Version:	1.0.0
Last Reviewed:	2026-05-21
Reviewer:	Venky (Lead Engineer)
Rule Pack Reference:	eu-ai-act@1.0.0

Scope of This Statement

This document describes SARO's position with respect to the EU AI Act (Regulation (EU) 2024/1689). It supports enterprise procurement teams and compliance officers evaluating SARO for EU-regulated environments.

Explicit Boundaries - SARO Does NOT:

- perform conformity assessments under the EU AI Act
- issue compliance certifications or declarations of conformity
- replace a human compliance officer or notified body assessment
- classify AI systems under Annex I or Annex III of the EU AI Act
- make legal determinations about an AI system's regulatory status

Article 10 - Data and Data Governance

SARO Gate 2 (Fairness) implements statistical parity analysis to support Article 10 compliance documentation. Rule pack eu-ai-act@1.0.0 maps detections to ART_10 and ART_10_3 obligations. Human review required for remediation.

Article 50 - Transparency Obligations

SARO detects indicators of synthetic content (Misinformation domain) and maps to ART_50 transparency obligations. SARO generates evidence that transparency disclosures may be required; it does not create or verify transparency labels.

Article 9 - Risk Management System

SARO's 4-gate pipeline provides structured risk evidence supporting Article 9 risk management documentation. The TRACE timeline is an immutable audit record.

SARO Classification Under the EU AI Act

General Purpose AI (GPAI)? No - SARO is a specialised audit tool.
High-Risk System (Annex III)? SARO does not make decisions affecting persons.
Prohibited Practice (Article 5)? Not applicable - SARO is read-only analysis.
Transparency (Article 50)? Audit reports carry mandatory disclaimers.

Approved Language per Compliance Claims Matrix

Approved: 'Indicators consistent with EU AI Act high-risk criteria'.
Forbidden: 'SARO certifies compliance', 'EU AI Act compliant', 'NIST Certified'.

This document is audit evidence generated by SARO v8.0.0. It does not constitute regulatory certification, legal advice, or compliance approval. Human review and sign-off by qualified personnel is required before any regulatory submission.
